The Welcome Center & Parking Service Office and The Office of Campus Life held their first-ever Parking Amazing Race on Friday, April 25 with five teams of three to five students participating.

Each team had to work through 10 stops such as the library, the weight room and a blue light phone, answering a question and challenge at each stop. For example, one question was, "Parking in Old Stage can seem quite intimidating. However, help is just a phone call away." The answer was, "Go to the blue light phone at the Old Stage." Once teams reached the destination they had to complete a basketball challenge before moving on. The team that completed all stops and challenges first was named the winner.

The winning team was Team Tara and prizes included bikes, weekend getaways, and squirt guns. Participants enjoyed a pizza party at the conclusion of the race. All teams received a framed photograph of themselves making their silliest faces. Team Tara's photograph is pictured below.
